Chapter 39
Recollection

I see! So,
"Why the hell is HE
here?"

and I saw
him outside
the room.

When this
game first
began,

Well,
it wasn't
just this...

I can't
follow it!
A person
named Mr.
Matsunaga
was in the
hallway.

Just right
from that
moment, he
had already
started to
plan how he
could use me.

—
Thinking
about it

The
school
has these
restrooms,
I often
staying —

It seems to
be really
easy thing

Yokoya
alone
had managed
to bully the
entire school.

"Yokoya",
This name
is Yokoya,
our mascot
discourse.

HE
trans-
formed
in.

Also years
ago, I was a
discourse
high school
discourse.
And my dog.

Who is
the ruler
of this
school?

Ruler??

?

We've long
known you were
not just a
student, but
the ruler of
your high
school life
without
warning.

Even our
advice
students
know about
you. Maybe
that's
bad.

Well, they don't like
rules or order,
but if you're talking
about the top bullies
they're the Class 10
Council and Koushichi
Class 10's Bunko, and
Class 10's teachers.
Just stay out of
those guys' sight.

When it
comes to their
question, your
warning, Oh,
he must be
tired of being
bullied...

U
W
A
A
H
!!

He
says...

Kikuzawa!
Keep it
down!

They can
also give a
taste of
the joy of
what it's like
to be in
control

Most are
too selfish.
They're the
perfect
example of
control issues.

What the
hell is go. Think
you're doing
anything, what
to school?

I didn't
mean I
should go.

Also, studying gets
from hard things
to soft stuff
in my mind.

What the
hell is go. Think
you're doing
anything, what
to school?

What, not
my old? mean
interested
in studies.

Go out to
study, study, study!

Hey, I know
about this,
dude.

What the
hell is go. Think
you're doing
anything, what
to school?

It's
about
time.

Let's
after
school,
dude's
gone
outside
me.

He's loaded. His dad's boss of some up-and-coming credit group.

Yakoya Norihiko's his name.

How 'bout margin interest rate adjustment?

Not a not but now that's a different story!

He's the son of a CEO!

11

Tell your wallet? It was in your front pocket.

Whoooo!

Like HELL YOU DON'T!

Dorry, but I don't have a single yen on me.

Why should I to that a threat?

Having potential going. They opened no time concerning into the next day.

After hearing that, the whole crew couldn't have been alone.

Could you spare a couple of bucks? The us some financial aid, pal?

Yakoya, brooklyn... Heard you've got some deep pockets, and

WHOA!!

He's walkin' around with 100,000 yen!

One, two, three...

Ngah!

Can't tell!

I need that money to buy another umbrella!

Stay at it!

!?

KAKASHASHA

HEY, COME BACK HERE!

You walked
right into
my trap,
fools.

Will
prostitute in
exchange
for internet?

I figured
you'd come
after the
money on
that!

!?

Sorry,
can't
help.

WHO
BOSS
IT?

...
...
...

Just now, I got the
exact moment you
robbed me on film.

I'm
going to the
police to file
charges on
extortion.

The
second
three
photos
are
done.

The second
three photos
are done.

Right. And
you guys will
officially become
criminals.

Your
lives are
as good
as over.

you'll be
discovered
to be guilty
of extortion.

With prisons
and colleges
right around
the corner.

I'm not
saying I
want us
to be
anemies.

With the
right ally.

we just
want
everyone
to get off

the
ground

But I don't
want to
be helping
my enemy
but he's able
to produce
a magical
apartment, too.

He can't
do my
dirty work.

WHY?
DANGER!

I want us
to work
together.

*If you gave me really
nothing to do my friends
I wouldn't dare say a
word to the cops*

*I'll give you this
much money in
the blink of an eye.*

*in that
blink
that's about
100,000 yen
in pocket
change*

Or
will
you...

Will you
be my
friend?

How
does that
sound?

.....

A great

the last
message of

To seize
control of
Sasakawa's
entire gang.

And in order to solidify that power, he institutionalized an unbreakable hierarchy.

By turning them into his subordinates, he now unexpectedly sat at the top of the school's food chain.

Even if you couldn't believe just one, you had to absolutely stop those other ones you thought were refusing.

The Acads were inevitable.

And it was impossible to ignore himself from where he dictated everything, so and it felt more like a game.

It was a clear system which ranked everyone from A to E.

...would be taught a hard lesson by the gang.

Things
aren't real
Things
aren't real.

Is it my
imagina-
tion?

At least the
time of this was
beginning. I had
taken a walk off
when I realized
the whole path I
wanted like another
dimension.

What
the
hell
man!

Don't enter
until I'm ready
until I'm ready
until I'm ready.

It's the
Yakuzas
and
other!

But I'm
from
holland
for me and
I'm not a
Yakuzas!

Oh
Yakuzas
Man!

I'm
Yakuzas
again
that's
cool!

you're in
rank D.

And
also

King!

system.

You
better
watch
out
how
you
address
me!
I'm
in
rank
C!

I've treated
cancer
patients.

I can't
begin to tell
you.

While others
tried to hurt
them and
spread an
image
saying
Tetsuya.

We do about
the same
work, even
when they
are angry.

Everyone
was afraid
to take their
work, even if
just by one.

Knowing if
you were
sufficiently
good for the
job, even if
it was
a shame.

In
the
end.

Even I
was guilty.
Thinking I was
protecting
myself, I
sold out my
friends.

Every day
was nothing
but coming,
violence,
betrayal,
and deceit.

There wasn't
a single
person left
to trust in
the entire
school.

They became little more than his lap-dogs.

Yakaya was bringing her!

You're probably thinking, what if you had that head, there's no way the teachers would stay quiet, right?

Not about that.

the school seemed doomed for oblivion,

Under Yakaya's reign of terror, which even the teachers tolerated,

with King Yakaya getting a kick out of it all

is what you'll receive.

"Now that Yakaya's gone, peace must have returned."

So naturally he dropped out of sight.

Strangely, he dropped off and after four months right before graduation

The school was thrown into chaos.

But as a matter of fact, it turned into a bloody battle for the vacant top spot.

"I want to control others..."
Like that.

"I want to be in charge for once."

Having reached that brutal world, the thought crossed my mind.

Everyone knew that school thought the same way.

I know it's not just me.

He heard me and smiled.

Since Yotoko knew that, when he confronted me in the costume office.

do you
want to
feel what
it's like to
rule over
others?

Kibutsujiwa,

If you join me,
you can rule
over everyone
in your team.

huh?

Well?

Since I know
Yohjiro better
than anyone
living, I can tell
you this

No one
has found
out why he
needed us
so badly

I agreed
to help
him.

He got all
the money
from selling
that stuff.

I didn't
need 10
minutes
for that
stuff.

It's hard to believe that such a person would be content with only this one plan.

He was able to gain control of an entire school in under a week.

...that's true.

I'm not very smart, so I don't know what he's up to exactly.

...that's true.

...that's true?

Right.

That's got to be part of his plan, right?

The Northern Country is nothing more than Yokoyama's dictatorship!

Analysis leads into discussion.

we would be playing right into Mr. Yokoyama's hands.

that if our team were to fall apart over Mr. Kikuzawa's betrayal.

his

Chapter 41

Unrest

our team was in the lead!

By Mr. Pakornpich efforts, for the first time since the start of the Continental Game...

45,452,000	45,452,000
Game 1	Game 2
45,452,000	45,452,000

our team
was in
the lead!

Whom's Mr. Addyama?

Yeah, look about that...

Adyama isn't here yet... but why don't we come to a consensus while we wait?

He made a suggestion...

How about we leave the amount to take up to the smuggler for a while?

Me too?

That sounds like a good idea to me!

So the most important thing we gotta do is protect our precious land!

I mean, look, our country got like a 800 million land anyway, right?

HUH?

All the
saying is we
leave the
DECISION to
carry money
up to the
smuggler!

H-hey!
It's not like
for saying
we won't
carry any
money!

You're all
a bunch of
apinease
simples!

We've gotta
protect the
lead you risked
your neck to
get, Fukunaga!
Y'know, so
show our...
appreciation!

All we're
saying is
that since
our team's
winning we
need to be
cautious!

We'll take
money! The
risk is just
to decide
when the
time's right!

All except
for Fuku-
naga...

Everyone
spread
with
that?

And?

Great. Now,
nobody's
going to
carry any
cash.

Pass.

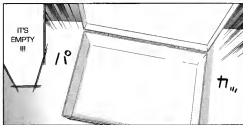

And that's exactly what happened.

And just what's inside the Southern Country's trunk, 19?

Awful! The Northern Country has declared pass!

IT'S EMPTY !!!

19

19

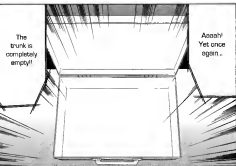

The Southern Country didn't even make an attempt to smuggle!

Too bad!

SOUTHERN

Damn

In other words, we've managed to guard our 300 million lead!

Times last
four years
haven't
changed our
standing
one bit.

The next
discovery was
Mr. Arizona, but
that item, too,
failed to bring
any change.

We will thus take this moment to announce the current team standings!

Sooooo!
This marks the
end of the 18th
game! Out of the
total of 50 games,
we are about
 $1/3$ to the end!

It may direct everyone's attention to the electronic scoreboard over here.

Outside Country's Bank Account

Northern Country

1,319,485,000

Southern Country

1,651,675,000

The score is
1,319,485,000
yen for the
Northern
Country and
1,651,675,000
yen for the
Southern
Country!

At present,
the Southern
Country is
in the lead!

As I
mentioned
earlier, only
7% of the 50
rounds have
passed.

It's still too
early to
conclude.
Native and
gentlemen,

Right
on!

displayed on
this scoreboard
ONLY at the
conclusion
of ALL 50
rounds!

The true
winner will
be the team
with the
highest
earnings.

We will resume
the game in
5 minutes.
Sometime
during the
play will then

We have prepared
individual income
for all players. We
please rest up
and wait for the
remainder of
the evening

Now then, it
has been a long
night for us so
thus we will pause
our game here
for today

Sorry to bother you, but could you go gather supplies for me?

Oh, okay.

This is bad.

Since we were so distracted by Yohany's little magic show, we had little time to think carefully about this game.

Calm down.

Stake for Death...

Why'd you call us here?

Don't! That's obvious, man. To win and make money.

What is YOUR ultimate goal for this game?

Getting right to the point.

I want to check with you guys that we all have a clear understanding of what the "Contraband Game" is really about.

Yeah, it's...

What kinda question is that? Both! If you don't win, you can't make money, right?

You want to win? Or make money?

What about you?

!?

You're all mistaken in thinking that something couldn't come thinking.

I was afraid of...

Remember, there are multiple ways to increase the amount of money in the outside bank account.

There are still chances to smuggle.

Reflect back on the rules at the start of the game.

And the team with the highest amount of money in the outside country's bank account is declared the winner.

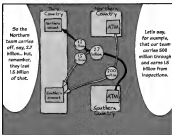

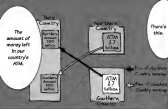

Let's think... the Contraband Game is basically about taking money from an enemy country's AKA, slipping through the customs inspection, and depositing that cash in some outside country's bank account... right?

*Another bank getting paid for its security
of being left empty yesterday*

*Does this guy get anything
except a lot of cash in paper?*

Northern Country:

Amount already in the market
amount at start

Amount earned

Amount left to distribute among country

$$0.9 + 2.7 - 1.5 = 2.1$$

billion.

Southern Country:

Amount already in the market
amount at start

Amount earned

Amount taken along with surplus

$$0.9 + 0.5 + 1.5 = 2.9$$

billion.

The Northern Country has 2.1 billion, and the Southern Country has 2.9 billion.

The Southern Country is a long shot...

Who said?

Well, the Southern Country doesn't win a single yen either.

However, the Northern Country gained 2.7 billion, so there isn't a single yen left in their offer.

The entire amount goes right to the Northern Country.

The Southern Country only started half a billion, meaning there's 2.2 billion left in the ATM.

Okay, but don't forget the money left behind at the end of the game.

Northern Country:

$$2.1 + 2.2 = 4.3$$

billion.

Southern Country:

$$2.9 + 0 = 2.9$$

billion.

Uh...uh...

So now, how much money does each country make?

The Northern team is up 700 million, whereas the Southern team is 750 million in debt!

After returning the 8.6 billion worth given to the teams at the start of the game, that means...

While on the other hand, the Southern Country is forced to proceed to the next round, all the while standing in greater debt.

And that's not all. Because the Northern team lost, they got to easily drop out of the game with their 700 million awarded to take home.

The losing Northern team finishes with a profit, whereas the supposedly winning team gets hammered with a 700 million debt!

Strange, isn't it?

Or not?

What is it you're asking for? To win...?

Back to our starting position.

successfully smuggling as much as possible, while still losing the overall game.

The ideal situation in this game is, in actuality,

successfully smuggling as much as possible, while still losing the overall game.

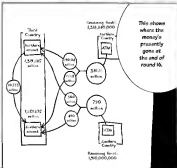

The ideal situation in this game is, in actuality,

Unfortunately, it is the preparation.

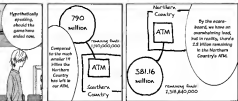

Yes, and it's not, because you often need to use such an extreme example to make an exception.

Unfortunately, it's an approximation.

Yes, and it isn't. My guess: You didn't need to use such an extreme example to make an oil spill!

The diagram illustrates the flow of money from the Third Country to the Eastern and Western Countries. The Third Country is represented by a large rectangle containing two smaller rectangles: 'Northern account' and 'Southern account'. The Northern account shows a balance of 1,549,187 million, and the Southern account shows a balance of 1,610,437 million. Arrows indicate the flow of money from these accounts to various entities in the Eastern and Western Countries. In the Eastern Country, there are four circles representing different entities: 400 million, 400 million, 400 million, and 400 million. In the Western Country, there are two circles representing different entities: 300 million and 700 million. The diagram shows that the money is distributed among these entities, and a callout box points to the Western Country circles with the text: 'This shows where the money's presently gone at the end of round 10.' Below the diagram, the text reads: 'Round 10: 1,549,187,161,043,700,000'.

Slowly but surely, the Northern Country is nearing the ideal situation.

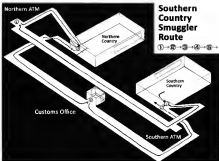

This is no time to be celebrating!

So snap out of it!

even worse than before!

We are losing this game...

① Gate - Once through, it automatically looks behind players to prevent them from going back. ② Northern ATM - Here, players withdraw the amount of money they wish to smuggle. ③ Gate - Once out, it prevents players from re-entering. ④ Customs Office - Here is where the Northern Patrols Inspector carries out his inspection. Money successfully smuggled is taken by the officer in charge and deposited into the outside bank account. ⑤ Exit.

Logically speaking, he'll take 100 million.

I guess that's...

.....

But still...

.....

But for getting to the room - I don't remember any specific time limit, do you?

According to the rules, we only have a maximum of 10 minutes to make a decision once we're in the customer's office.

It's been over 15 minutes since he left and he's still not in the room!!

What's taking so long?!

Yes,
it
works
fine.

In fact,
this card
doesn't
just
withdraw
money...

It can
deposit
money
too.

You're thinking
this card is only
for withdrawing
money from the
Northern ATM,
isn't that?

Well,
yeah.

So is that
all right,
you'd deposit
50 million
into the ATM?

Of
course.

Now the

100 million
per month.
You can
also deposit
50 million
per day.

These cards
are not
limited in
use to their
owners.

I had actually
borrowed Nee's
card this time
and tried using it.

*You're
kidding!*

Just to be sure,
I asked an LST
employee about it.
He said that using
other people's cards
is perfectly fine when
it's something like
paying money, though I
wouldn't go all right
to the store owner's
retailer from outside.

It worked,
without
a single
problem.

And
for my
company,
the
best
to
know!

Later
asked
the
employee
about
this.

Then
the card
would be
correct?

Like
this—
I saw
this
card
suddenly
but if
the
card
was
right
to use.

What
would
happen
if your
card
was
correct?

Even
then
that?

Yes.

The ATM's computer retains all data on deposits and withdrawals, so within 10 minutes, they were easily able to issue me a new one.

I DON'T BELIEVE IT!!

THE STRAIN (2017)

EH?

Excuse me, it was your card, not mine.

Excuse me, I only broke the card after they already told me they would.

What would have happened if they refused to issue a new card?

That's going to be for an apartment!

With out your card, you cannot obtain your reward at the end of the game. So be very careful not to lose your cards until then.

Simply losing the card is NOT grounds for having one released.

The most important lesson out of all of this.

Is that they only release the card once they confirm it is impossible.

The reason is
that I'm still
missing one
important piece
of the puzzle
to make this

Flash?

Ah...
Glory.

Good

Yep.

Well, I'd

What

*... Light.
What
are the

*There's
it!*

*"You

someone
who will
betray
them...?"*

Across the world, there are all sorts of systems that define the relationship between a ruler and his subjects.

However, all of them boil down to two fundamental things.

The real question is...

What standard is holding the system together?

From Mizusaki's and Ray's stories, it's simple to reason that Yotsuba's way of controlling his realm is by some powerful, dictatorial means.

... or fear.

Either greed...

The reason for that is there's a payoff for remaining employees. They're able to satisfy their greed.

So why let it then, that these people don't quit their jobs?

Like average Japanese salarymen, it's often joked about that their lives are dictated by the big corporations.

You're obviously right because of the great salaries, people are willing to put up with just about anything.

So that as it was, I don't believe the Northern Country is operating this way.

It's an icky system of control that's held together by satisfying the subjects' cravings and desires...

Continued employment means a salary... or, a way to collect money. What's more, belonging to a large company denotes as a way to maintain social status.

that
Yokoyama
is a rule
by fear.

I'm
fairly
certain
—

Actually...
that's exactly
what it was
like when he
was at my
high school.

Yeah,
I agree
with
you.

Yokoyama was
a very
powerful
man.
He was
a very
powerful
man.
He was
a very
powerful
man.

It seems
like
you
know
the
difference
between
a rule
by
fear
and
a rule
by
power.

You guys can
understand,
right? Look
at how you
keep coming
back to the
Car Game.

That's
why
it's so
difficult
to escape
from.

Compared
to a rule
by greed,
a rule by
fear is
far more
insidious.

This is
because greed
holds a varying
level of power over
people, whereas
fear largely affects
all people the
same way.

She's taking her time to chat leisurely and try to get as much information as possible out of the opponent.

I've entrusted Mao with the weighty responsibility of searching for just the right person.

That's exactly why she's the one for the job!

I doubt it...

You sure Mao can handle it?

It refers to how mistakes are easier to make when a person's stress is suddenly removed.

In the world of psychology, there's something called "the Theory of Tension-Reduction."

Or, maybe
example could be
actual entrance
course. After the
contest is over,
you leave behind
the mechanical
pencil you used
to take the test,
and so on.

For instance, say you're
taking the test to get
your driver's license. After
managing to pass the
dreaded parallel parking,
you might find yourself in
such a good mood that you
accidentally drive over the
curb strips in the
middle of curbs.

A mistake
made
because
anxiety
let up.

That's the
essence of
"anxiety-
reduction."

Oh, I've
done that!

Their body
language
would show
they're an-
dalousing
I'll pull
something.

If I were
to go as
bomber,
the army
would be

She
naturally
taken down
the wrong's
attitude.

But
in her
area, it's the
opposite.

However, her
weakness
make her
the perfect
weapon in this
situation.

As you
well know,
Kamada has
is not only
broad to
a fault, but
slow and
clumsy...

She
looks
weak and
understand-
able.

remember
that she was
the one to
make Yabays
volunteer his
interest in
"domination."

As
proof
of that,

The result
is that she's
able to make
them say
things and see
emotions
that they
ordinarily
wouldn't!

Yeah.

And's
you gonna
ask about
what's
inside my
trunk?

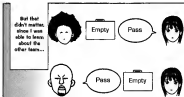

Oh
huh...

... and so,
that's why
this teddy
bear is my
favorite!

I used
every
second I
had and
sincerely
tried to
connect
with them...

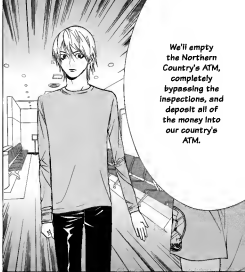

I did
my best to
carry out Mr.
Akagane's
mission, doing
everything
I could to
learn about
the other
players.

But that
didn't matter,
since I was
able to learn
about the
other team...

Because
of this,
my team
kept the
game at a
standstill.

We'll empty
the Northern
Country's ATM,
completely
bypassing the
inspections, and
deposit all of
the money into
our country's
ATM.

SMUGGLING.

I'm
talking
about real,
authentic
—

There's absolutely no way of knowing what goes on in there from the outside.

Most importantly, the billiard ballroom has no outside connections whatsoever.

Each player starts off with 200 million in their account, but whether that account grows to 400 million or 2.5 billion makes no difference.

I experimented to make sure there's no upper limit on depositing money.

Like, having a single player withdraw 2.5 billion...

Anything could happen... without raising even the slightest suspicion!

And that's what we'll do.

— Ann-ko.

We wouldn't have any money left to carry, after all.

There'd no longer be any need for us to risk carrying our money through customs.

Once we accumulate enough money, we'll be able to anticipate on making our team lose.

As I explained before, the final outcome of this game is to ensure the most money that loses the game by mine.

So they won't discover they've lost the money until all 80 games are complete, you mean?

The reason being...

All the while, the Northern team will never expect that all 2.8 billion is already in our hands.

That unless you have your teammate's card, it's impossible to tell how much is in his or her bank account.

we'll leave
this game with
no debt. More
importantly,
we'll turn a
profit and be
able to withdraw
from the
Liar Game.

If we're able to
lower our score
enough to lose,
we'll be removed
from the game
with a gigantic
positive dividend...
In other words,

Paying him a
couple hundred
million will make
little difference
since we'd have
all that money
left over.

Of course, we'd
still have to pay
the Northern
team's traitor
compensation
for his work.

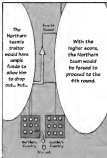

... So
there
you
have
it.

For the rest
of them, it'd
be impossible...
Including our
number one
favorite,
Yokoyama.

The
Northern
team's
traitor
would have
ample
funds to
allow him
to drop
outta this...

With the
higher score,
the Northern
team would
be forced to
proceed to the
4th round.

A
no-fail
plan for
sure!!

That
plan is
totally
perfect!!

A-
AMAZING!!
THAT'S
GREAT!!

A
no-fail
plan...?

CHIBA

For starters,
we don't have
our critical eye
on the other
team... but
more than
anything...

if

I would
not dare
to suggest
the plan is
flawless.

No...

is truly
frightening.

That man,
Yokoya...

That was
the first time
I'd ever
shown such
weakness in
front of us.

To the
contrary,
the ever-so-
confident Mr.
Akagawa even
described
Yokoyu as
frightening.

But he
didn't
have
much
faith in it
himself.

Everyone
thought
Akagawa's
plan was
perfect.

But it
wouldn't be
too long...

how very
frightening
Mr. Yokoyu
could be.

before
all of us
would
come to
learn...

Chapter 44

MISADVENTURE

Akiyama's Plan

One player from the Northern County Chapter takes the whole team's cards and withdraws all of their money from the Northern County's ATM.

He then places the money (and to the ATM or puts on sight that it is not visible from the hallway.

Then, when the time comes for the Northern County's player who is cooperating with them to struggle to return the money left by the ATM and receive it over to the Northern ATM, depositing the entire cash into the account.

With the Northern County's ATM empty, the Northern County's ATM now receives more money than what is possible for the Northern County to struggle back.

LARGAME

But that's
understand
them down.

It's no need
to do it first
a player in
the Northern
Country willing to
help us, and
this place
going to go.

... Oh,
no
hardly.

We have to
make our
negotiations
in that pitiful
remnant of
time.

Once in,
there's
only ten
minutes.

The only
place where
we can
contact the
other team's
members is
within the
customer
office.

We can keep a
close eye on the
other team's
players from the
window.

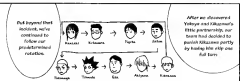

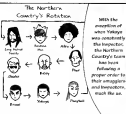

Well! There's
something
else we can do
outside the
inspection!

It's
not to
be
overlooked.

Heeding Mr.
Bakou's suggestion,
those of us who
weren't going to the
customer office kept
close surveillance
on the Northern
Country, trying to
identify someone
who stood out as a
potential ally.

Fugitive Record

The Northern Country's rotation has become irregular immediately after Yokoye's plans were exposed.

But not so far then.

— Don't ask this.

Why would they do that?

Plus, they already know that the rotation can give away information.

Besides Mr. Yokoye, there's only three other players I've directly spoken with.

By the way, any ideas on who to target yet?

Ah... well... not really.

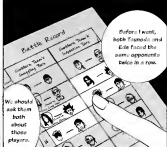

I see.

So I can't really pick anyone with confidence... yet...

Okay! I'll
talk with
them right
away!

We
might
be able
to learn
some-
thing.

We should
ask them
both
about
those
players.

Before I went,
both Yozome and
Erie faced the
same opponent
twice in a row.

Yozome
retired it...

huh.

whereas
Yozome
retired it.

However, Yozome
continued to
maintain a rotation
that's fair to all the
team's members.

That for
all appears
that Yozome
and Yozome
are relatively
unaffected.

But unfor-
tunately
for him, a
tad too
late.

that would
have been
the deciding
factor...

If the
battle is
driven
here.

So...
what's the

the top

I

I don't really

what you're
saying

Oh,
ummm

Oh,
it?

Started on
an order for
when your
turn comes
up?

May
Have
your

When I was

too long ago, I
was up against
that long-haired
bearded guy

He went up
and went
down, he
said to me

What...?

Guess for
right, since
you're both
in order

So he guessed the next
champion to you. And
then... the next champion
is that fellow

Thank
you!

Hearing
that is
a major
relief,
man.

What?
!!

!!

Yes.

Thank
you!

By

You saved
my life. I
owe you one.

You saved my
life. I owe
you one. So
let's start
the revolution.

What
are
they?
!!

Oh, I
told you!

No
for
this.

!!

He's already
come up with
this 100% winning
strategy. Sorry
man, but your
specific game
loses.

Along
with
Bey, a
winning
strategy.

Our
team
is
undefeatable.

You're the real
strategy guy, right?
Let me give you the
strategy. Well, go
check out your stuff.

!!

All right,
I'll tell you
something,
but just to
you!

And you did
help me get
going, right?
And I don't like
losing. Please
explain.

Well,
you do
know the
game, right?

You can
take it all.

Right after you
open the door,
you'll see 300
million off to the
side just sitting
there.

THREE
HUNDRED
MILLION—*off*

74

Anything with
that much
money, even if
you're Etern
Gems, all kinds
you'll make
some cash.

Why be here to
leave 300
million to the
side in the open
to happen a
month pay the
bill.

It's my friend's
cash. It has
something to do
with the 100%
refunding.

What's
your plan
this
month?

He
saw it?

That this card
is just for
withdrawing
the money
from the
company's ATM,
right?

I had
to give
him this.

Oh, don't
tell me,
you didn't
know!

Right.

It can
deposit
money
too.

Fact is,

that our
cards could
do that a
long time
ago.

The
Northern
Country
has
already
closed
it.

You...

But
there's
what Mr.
Allymore
just
explained
to me!

Mr.
Friedman,
you're only
got 200
million to
risk.

But if
you still
want
to
take on
this
challenge...

After losing to this
game last time, I'm sure you're
painfully aware of
how much money it
takes to carry 20
million across.

!?

Now, the 200
mil and deposit
it into your
account on the
Northern side.

The
bank
needs
to
know
the
code.

Instead of
200 mil, your
account on the
Northern
ATM now 600
mil!

But
what if...

It's only
normal.

Thinking
the
bank
would
you
know.

But
why
can't
you
be
here?

You only
got 200
mil now.

Right?

You've
got 300
mil up on
everyone
else,
after all.

There's
nothing to
be afraid
of

Failure
wouldn't
be a
problem.

If you want
to take it,
then...

Then this will be
preparing our
force prepared
to secure his
place in business

I'm
not
finished
yet.

What?
That's
great!

and it will
destroy his
credibility in
the process.

he can't use
his winning
strategy
anymore,

Why are you talking
me all this when it
puts your team at
a disadvantage?

...But
well,
this
isn't
really
mine.

I've got it,
it helps not
just you, but
the rest of
your team
too.

Heheh!
And our
team can
win!

I HATE
our boss's
guts!

it's
simple.

if word
gets out,
they might
kill me.

Oh yeah—
I think it's
crucial that
don't go
telling your
boss about
the 100 million.

I'd love to
break the
news, just
wait.

I can't get into
the details, but
our entire team
feels the same.

your next turn is
the only chance
you'll get to take
the money.

Well, whether you
believe me or not,
take the money
or leave it. It's all
up to you.

But I gotta warn
you, will limit
until that on our
next next turn,
he's gonna use
the money for his
plan, which
means

... and I also deposited 300 million...

During the game after that, the same thing happened to me.

I was doing it for our team, I

How was I supposed to know?

You fell for their trap.

That means...

Would you keep this a secret, pretty please?

Oh, please, please...

So it won't matter in the end, right? or not? we need the 300 million ATM's funds by 300 million!

If you go by Akizuki's plan, you'll find someone who'll betray the Northern Team everything in the Northern ATM will go straight to the Southern ATM account!

DON'T
YOU
UNDER-
STAND
THE SERI-
OUSNESS
OF WHAT
YOU'VE
DONE?

DUMB
ASS
!!

There's
still
another!

Oh,
shit...

EH? Then,
you
mean—!!

This is terrible!
He didn't hear
Akayama's plan at
all— he was up as
inspector at that
time!

Here is the
customer
office. It's his
turn to be
smuggler

What about

The Northern

Is this
that
money?

Yes, it
is.

was all
part of Mr.

plan

The
money is
that what
you did

You're

It's hard
to believe
the money
would be this
big.

Put the money left in the Northern ATM in wall over 3.2 billion.

3,21

1,01

There are only 31 games left in other words, that's a maximum of 31 billion we can smuggle!

Do you understand what this means?

And... but you know Mr. Fukunaga

looking at it another way, it's just more money to carry to our ATM!

YOU IDIOTS LOADED US UP WITH AN AMOUNT WE'LL NEVER BE ABLE TO GET RID OF!!

OUR CHANCES OF BEING CRUSHED ARE MASSIVELY GREATENED!

I-Flame may calm and return.

We still have a chance to win. It just all depends on our strategy!

Well

There's nothing left in the ATM now.

And just like Edo and Iwanaka, I'm going to deposit the money into my account at the Northern ATM, where...

Should there really be 300 million there?

When I went to the Southern ATM, I found 300 million just as the Northern team's inspector had spoken about.

I deposited
everything
into my bank
account.

I'm so
sorry.

I figured the
more money
my dad, the
more I'd be
helping the
cause!

And that's
Akiyama say
a thing!!
Other people
can use our
cards, etc..

Anyone
would do
the same,
given the
situation!

I mean, the
inspector
said that it
would ruin
Yakoyai!

That's
all of the
Southern
AFN's
money

Get
out of
here..

I'll
follow..

Basically...
the three of
them have just
transferred all
of the Southern
ATM's money...

was already
carried out
by Mr. Yokoye
before us.

How ironic...
Mr. Akiyama's
same exact
plan

Yokoye's
strategy has
successfully
deceived the
police...

Mr.
Akiyama

is
how he's
always
a step
ahead.

The most
brilliant
part about
him

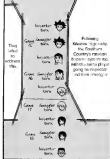

Rather, he
targeted the
more sure-to-be-
weary Eda,
Tsunoda, and
Katsura with
his strategy.

The result was
that he needed
Mayama, Fukumitsu
and *Kuratsune*...

And they
fell for it
beautifully.

The Southern Country didn't have a prayer.

That rotation ultimately facilitated Yokoyama's strategy.

Although there are 3D games remaining, the outcome is virtually decided.

Which means
that
we can
manage
something

Which
means that
we can
carry at
most 2.1

There's still
31 games
left, yeah?

Er-
hm.

I'm just
getting to
the point.

Okay... so saying the

$$\begin{aligned} & - 280,575,000 + 4,228,840,000 \\ & = \underline{\underline{3,948,325,000}} \end{aligned}$$

S. ATM

$$\begin{aligned} & 3,251,675,000 + 0 \\ & = \underline{\underline{3,251,675,000}} \end{aligned}$$

So at the end of the game, the amount of money would have to...

Out it must

...You're right, we'll start!

But regardless of what we do, our chances of winning... are ZERO.

Well, strictly speaking, it's not possible to go into negative numbers.

ARE YOU A COMPLETE MURDER, OR WHAT?

If you find a brother on the Northern I want, we can have this whole thing over—

AND O-Oh! we can still use Akyama's pistol

HOW DO
YOU LURE
AN ENEMY
WHO
ALREADY
KNOWS
WHAT
YOU'RE
TRYING
TO DO?!

THEY'VE
ALREADY
USED THE
SAME
STRATEGY
AS
AKIYAMA'S!!

Who in the
world would
double-cross
their team in
a situation
like this?

It's
probably
because the
Marthians
team's
already
small!

Besides, Akiyama's
plan would work only
when the enemy has
a fear of losing
the game.

Things are no
longer at this point
that I don't even have
the authority to make
you listen to the team.

We'd
better go
tell Akiyama
how you've
screwed us
over.

Anyways.

Did you
really do
this for
the sake
of our
team?

I DID IT
ALL FOR
MYSELF!!

I BEG
YOUR
FORGIVE-
NESS!!

When I was depositing
the money.

I know
I said...
it was for
the team,
but that's...
a lie...

the only
thought on my
mind was to
make money
for myself.

And
then...

...That
wasn't
for telling
the truth...

If I said
I wasn't
at all
thinking
about
getting
rich...

...Oh,
myth...

I see...

**WHAT
?!**

I'm
relieved
to hear
that.

*But these
retards
screwed
us over
just to help
themselves!!*

*If they
screwed us
over trying
to help the
team, that's
one thing.*

*Wait just a minute!!
Wasn't you paying
attention?! Kitamura
said he did it
all for himself!!*

*What the hell
is this
about?
I'm
not
going
to
be
a
part
of
this!*

*I'm
not
going
to
be
a
part
of
this!*

*Any of them
could have
easily tried to
make all sorts
of excuses.
Yah.*

*Whatever.
It's
Kitamura.
Fucking
bastard.*

*That's the
LEAST of
what they
deserve,
after all
this!*

*Ma,
it's
not.*

*Beat
the living
daylights
outta these
greedy
pigs!!*

in the midst
of the game.

The system
for having
a computer
keep track of
withdrawals
and deposits.

If stealing
was possible,
the game would
get totally out
of hand.

Seeing all the
money lying
that ATM,
I wondered if
anyone'd
notice whether
one penny was
missing or not...

...I
thought
of that too,
actually...

the data can
be retrieved to
identify the
culprit.

Then, the computer
stores to keep a
complete record of all
transactions. If at the
end of the entire game
the total amount of
money comes out to
less than 7.2 billion,

Here,
have
alright.

Does
that have
anything
to do with
your strategy??

So
??

They're basically
preventing
players from
secretly taking
money out of
the game.

that
makes
sense.

*Amazing.
Akiyama!!
This plan
will defi-
nitely
work!!*

Now
that you
say it,
that's
true!

*AAAH!!
NO
WAY!!*

It's
like the
last.

No
wor-
ries.

But you're
the only one
who can make
this plan
work, Mr.
Akiyama.

Seeing
Akiyama
show up
out of turn
would defi-
nitely alert
them that
we're up to
something.

After all,
if we
were to
stick to
the
order
we've
used so
far,

Yes, so
that's why
we have to
mix up our
rotation.

We
immedi-
ately
put the
plan into
action.

Kikumaru,
Eido, and
Tsunoda,
if you see any
of the guys
who tricked
you up next,

The Southern Country's Rotation

we abandoned our rotation as soon as the next turn started.

Then,

Instead, we skipped right to Mr. Jiro.

Had we been following our order, the next struggle would have been Mr. Fujita.

100 MILLION.

DOUBT.

NO-THING !!

ハカ

And inside of the trunk, we have...

The Northern Country's Inspector has called DOUBT on 100 million!

Fantastic!!
The Southern
Country's
smuggler
managed to
deceive the
inspector,
winning him
50 million!!

Got a
load of that
inspector's
fins.

In
the hope
that Mr.
Akayama's
plan will
work,

All
our
team
has left

He's like
he couldn't
care less
that he
just lost
50 million

He's so
sure that his
team's going
to win.

Or
putting it
another
way,

The moment that
any of the men who
foiled Mr. Tsuruda, Mr.
Edo or Mr. Kitamura got
up for their turn, we
were ready to implement
Mr. Akayama's plan.

AAHH!
IT'S
HIM!!!

THAT'S
THE GUY
WHO
TRICKED
ME!

Hm

Yea,
sir.

Guess
that's my
cue.

You
certainly
seem
relaxed.

Aah.

Your
treasure
is
totally
empty.

I
already
know.

And since
you don't have
money for
refinement, you
don't possibly
have any money
to begin.

Well,
that's 1.9
billion to be
exact, all
the money
you had
remaining
in the
Southern
ATM.

All this
mess
moment,
our ATM is
completely
empty.

After all,
your team only
tried to attract three
of our team members
to transfer 1.9 billion
to your country's
ATM.

Word
got out,
huh?

Hah!

Shyeah...
How
long!

And since
they just wanted
to make money for
themselves, we were
sure they wouldn't
again! about it.

Those three
seemed so
stupid, we figured
they wouldn't ever
realize they were
foolish.

Yeah it's
too late for
you people.

But it
doesn't
matter.

Looks
like
you're
losing
for
them!

He
he
he

You wanna
not
why? Kahaha...
If you do the
math... You'll see
in a second!
There's only 27
games left, so if
he then...

As long
as we
keep calling
doubt on
you, it's
impossible
for you
to win!
Kahaha...

4,228,140,000

Right now
the Northern
JTM has 4.2
billion in it,
and the
Southern
one's at
zero...
Kahaha...

Do
you really
believe your
victory is
guaran-
teed?

But
I'd say it's
you guys
who're
stupid.

Please and .
Let me fill you in
on what's going
on here.

—
What?

We've got a
100% shot at
winning this
game!

Thanks to
that 1.9
billion you
gave us to
transfer.

Ko Jaku.
That if every-
thing had went
exactly accor-
ding to your
plan, then you
guys would
have won.
No doubt
about it.

In your head
you were "on
right?" No
matter what
you guys try,
there is
ALWAYS
your own do
to what?

What is
happening to
Hagumi
Laker...
doubt?

?

WHAT
IS
IT?

You
guys made
a fatal
mistake.

But
here's
a new
flash:

You
ASSHOLE
we deposi-
ted all 14
billion of
that money

to
to
to

What
was
taken?

High
up

an

That
141 billion
never made it
into the
Northern
Country's
ATM!

But we
didn't...

No,
not at
all...

Outfitting?
How taking
disposable
money out?

He's
bluffing

Oh...
I see.

What is
Akiyama
saying? All of
that money
was clearly deposi-
ted into
the ATM
corner!

WHAM
ATT
IP!

using
this game's
blind spot to his
advantage.

Aki-
yama is
brilliantly

We even
checked!!
All that
money we
left there
were com-
pletely
gone after
their
turn!!

Of course
it's not there.
We had those
three men
all the time.

THEY
TOOK IT!!
ALL
THREE
OF
THOSE
GUYS
ON
YOUR
TEAM
DID!!

CUT
THE
CRAP
!!

WHA
AAA
TTP

So when you
came to us
offering money
to transfer...
we figured,
"It's the
same
trick!"

I know you
guys figured
you had us
with that
sneaky plan,
but in fact, we
had already
thought
of it.

We hid
all of
them in a
special
place.

But we
didn't
transfer
them
to the
Northern
ATM.

and
hid all the
money
away.

That's
why we
pretended to
fall for your
offer.

//

//

They
have no
reasons why
to not how
much
remains in
the Northern
one...

Even if
their team
can see
how much
money
remains in
the Southern
Country's
ATM.

And
that is the
last
spot of
this game.

Yet, the
Northern
Country has no
reasons to
disprove
Harmach's
to

Indeed,
quite a
during
blast!

Uwa...
I can't
believe what
I'm hearing

— And
what's
that?

I
promise
to tell

When
our time
comes.

Yes.
Let's
start.

Oh,
come on.
You really
expect me
to answer
that?

WHERE
DID YOU
HIDE
IT???

S-SO?!
WHERE'S
THE
MONEY
!!?

WHAAA
181

I'm
thinking...
at the end
of game
50.

And
rightfully so,
since they'd be
left billion short
of the 3.2 billion
total they were
supposed to
have.

At this rate,
even they only
up the money
at the end of
the entire
game, I'm sure
the left side
would start
to panic...

The officials
would be faced
with having
to figure out
where that
money originally
belonged...

But you
know,
there'd
still a big
problem.

they'd
return it to
where it would
be before you
loosened it -
Namely, the
Southern
Country's
ATM.

since you
guys were
the last
ones to
withdraw
that left
billion.

... So,
I'm guess-
ing...

Ah, but
there's
actually an
easy solution
to that. If
they look back
through the
ATM's compu-
ter data, they
can figure out
who the last
people to
withdraw all
that money
were.

So
in other words...
it would be as if
that 1.8 billion
never left the
Southern ATM
in the first
place.

So you have no
choice but to carry
empty trunks for
the rest of the
game.

Worst of all,
you guys have
absolutely no
access to any of
that money.

It's impossible
for anyone on your
team to raise
your outside bank
account by even a
single yen.

This co-
sentially means

Even if you
guys wanted to
smuggle,
you can't.
So at the end
of game 50,
the results
would be...

Our team
isn't even
going to
bother
trying to
smuggle
money
any more.

these
are our
respective
standings.

Northern Country

Overall Rank: 1,760,440,000

Southern Country

Overall Rank: 1,760,440,000

Score: 204 1,538,840,000

At
present,

We
can't
do any-
thing to
change
this...
???

Y-y-
you're
kidding,
right?

I beg you...
at least
save me!

I'll do
whatever you
want... so p-
please!

he's

That goes
back to the
Royal
Council held
before this
game.

Well,

You're probably
wondering how
he became our
leader in the
first place.

since I had been
up against every
person there
during the
second game.

Of
course,
that was

pected.

Someone of
the Royal

been I know
from before.

I've come up
Watanabe's
representative.
Pleasure to
meet you!

Good day,

things.

But there
was one guy
I never saw
before...

Seeing this new
guy, I figured
he must've been
Watanabe's
friend.

Just then,
I noticed that
Watanabe was
missing.

Looks
a little
strange to
the point.

It was
the same
game that
day.

Since the winner of
the second round
dropped out, one
of the two people in
our block would win
and remain.

The
Pond

game was
the "Gomoku-

We figured that
there he was now
and didn't know the
point of the game,
he was a willing
fool.

Everyone agreed
that things should
be the way to go.

No
way...!!

In exchange,
would you give
me your five
votes?

I have
50 million

Then just

about that

This money
will surely
be of much
use to you.

You're 100

Oh how about this?

I have a list of 40 - or, 50 votes over what I need. That makes those extra votes nothing but useless filler.

Earlier, I mentioned that 40 votes is all that is needed to win, and so that vote.

But let me give you some good news.

I offer to sell these 39 useless votes, along with all of my votes for the remaining eight rounds, to anyone who wants them. All together, that's 39 plus 40, or 79 available votes.

Naturally,
I'll only sell
them to the
highest

I show no mercy to those who betray me.

I fairly repay those who are willing to make sacrifices and maintain their loyalty.

Yes, that, gentleman!

"Everyone can

Well,
she
had

Was Mr.

willing to
betray his
own team?

More
importantly,
how
did it
go?

Are we
one step
near victory?

That's
good
news!

What?
What, it's
not that
simple.

His name is
still wanted
the plan
might have
failed.

I can
confidently
say he's
completely
on our
side.

Their team is
being slowly
oppressed by
Tokoye,
just as I had
imagined.

I had
the book,
the, and
when he
jumped
right at
my offer.

Now
comes the
hard part.

All I've done
is destroy the
notion that our
team is going
to lose.

It's
not
that
simple.

Do just get him
to transfer all
4.2 billion in the
Northern ATM to
the Southern one!

How come?
Didn't the
business
guy say he'd
betray his
country?

Why?

"We've hidden all 4.2
billion of the money
you tried to get us to
transfer. Since that
money originally belonged
to the Southern ATM,
it's going to end up if
you guys never took
the money out in the
first place."

This is
what
I said

dard to
Mike.

looks like
this.

—Logically,
then, we can
only get him
to carry 2.5

most.

Since you've
already told him
that the 1.9 billion
will go to us in
the end, to ask
him to carry 4.2

inconsistent.

I see.

As an example,
assume that 2.5
billion is drawn
from the
Northern for the
Southern. AGI is
like all others.

It seems
that way,
but it's
not.

But isn't 2.5

enough to
last there??

losing the

... the people
saying we'd
have no choice
but to enter
the fourth
round round.

we need to
concentrate
on lowering our
outside bank
account to below
that of the
Northern team.

For
abandon,

It's
easier
than you
think.

SOUTHERN COUNTRY

Can we
really do that?

... So,
lose on
purpose?

When their
treasure can only
be empty at
this point, that
amounts to +60
million for their
outside bank
account and
-60 million for
cash.

we'll keep
calling "Don't,
100 million," on
our inspection
turns.

Then every time
they call debt,
their outside bank
account will go up
100 million since
we're carrying
that much?

... And
in addition
to that,

When the
Northern Country
believes there's
4.2 billion in their
ATM, they'll call
"Don't, 100
million," with
extreme
frequency.

First, we'll
start carrying
100 million
every time
we struggle.

Sample Calculations:

For the purposes of illustration, assume the queries have yielded:
The Northern suspect's last called, "Doubt, 100 million,"
Four trucks and parked trucks...

Changes in the Outside Bank Accounts:

Northern Country

$$+400 \text{ mil} + 3,000 \text{ mil} = +3,400 \text{ mil}$$

Southern Country

$$+500 \text{ mil} - 3,500 \text{ mil} = -3,000 \text{ mil}$$

...with the Southern Country's suspects all calling, "Doubt, 100 million," every time?

If we keep up this pace, I predict that somewhere around six to seven games later, the Northern Country's account will be higher than ours.

Outside Accounts

Northern Country

$$1,89,485,000 + 700,000,000 = 1,89,485,000$$

Southern Country

$$1,811,675,000 - 100,000,000 = 1,711,675,000$$

ATM

Northern Country

$$4,118,840,000 - 400,000,000 = 3,618,840,000$$

(But Southern Man, that's not really 1,718,840,000)

Southern Country

Also... in line with the northern from that sample calculation, here's what the money business would income

If we simply stop smuggling altogether, nothing will change the situation back.

Once we manage to get the North's outside bank account above ours, we're in the clear.

North South

Since their trunk can only be empty, we'll be back to square one.

+50 mil -50 mil

Yes.

North South

Simple. In nature, we just can't doubt on them when it's their turn to smuggle.

Well... If the other team keeps calling doubt when we're not smuggling, won't our account go up 50 million every turn?

-50 mil +50 mil

Min-tan.

In summary, your idea is to offer the outside account to go by loss by a small margin, and once we do that, get our buddy to go carry the Northern team's money?

is how to
keep this
plan moving
without
Yokoya
catching
on to it.

The
hardest
part

Our team
had no time
getting Mr.
Akagawa's
plan into
action.

In the
blink of
an eye, our
scores had
narrowed!

Just as
I'd thought,
the Northern
inspectors
kept calling
doubt.

If you spot anyone shooting a disturbing trend, get their name on tape and report it to me.

This is a tape recorder.

I have enough for everyone.

It's a very small town with just two main streets. 200 million in cash.

NORTHERN COUNT

It's a very small town with just two main streets. 200 million in cash.

I want to know what happened to all of our money.

How many calls about this guy's dead money?

The point is the guy knows he's making us go out on a limb! If we win, then great for him, but if we lose, he still walks away scott free!

Remember this game really no way to get better? It's a trap!

So what should we do?

Of course the most baffling choice!

What if I don't win the game?

Who knows? Probably shipped off somewhere to do forced labor for the rest of our lives, or just our lives being destroyed with the Communist big machine.

The yakuza in the grey business suit is shocked, as you must see it later! If we only, when guests for him, but if we know the still make away would find

This device will allow you to get all that money

It's better to have something like this

Think you're all

The group you are looking at are people who are looking for the best for their future

That
doesn't
make any
sense!

Given the
whole scenario,
how possible
is it that
any team has
many points
the others
have.

That
point
standing
is really
Yakoyu's
tool to
maintain
control.

There's
no such
thing as
last
place!

You're
also an
idiot!

If they've got a
point ranking,
then why don't the
guys in last place
just get together
and throw a coup
d'état??

Oh, absolutely.
We're just
that makes
everyone more
and more loyal
to Mr. Yakoyu!

Fourth place
is perfect
because one
person could
take you to
last place,
someone as
out of control
could send you
to the top.

I'd love to
send Mr.
Yakoyu
back to
the top
place.

And you
disgrace
everyone
because of
the whole
thing. And
Yakoyu!

Bandana Man was obviously thinking, "Is Akkuma telling him the same thing he said to me..."

When I was busy negotiating with Mr. Long-hair,

For the first time in that parasitoid-like, Jaded Northern Country, they feel a "connection"

that the makes the three of them connected.

...And most important of all,

So the safest thing to do is just tell them from the start, "We want the three of you to become our allies."

I'm sure of it.

That "connection" will give them the power to smash their oppressors.

that I felt the desire to destroy the Northern Country's social system.

It was then, from the bottom of my heart,

All it required was
Mr. Aligzama's plan
to succeed, ensuring
we keep Mr. Yokoyama
from realizing it.

That wasn't
a difficult
thing to
do, anymore.

First, we
intentionally
let the Northern
Crusade win by
making their
outside bank
account higher.

Mr.
Aligzama's
plan was
two-fold.

we have those offices
on the Northern
Crusade's home
transfer all their
ATMs money into the
Northern Crusade's
ATM for us.

Second,

The difference
in our income is
now just about
200 million...
meaning...
